Building knowledge. Advancing intelligence. Shaping the future.

WHY THIS PROGRAMME

The future of intelligent systems demands more than technical familiarity. It calls for rigorous understanding, systems thinking, and the ability to engage deeply with emerging paradigms of intelligence. TCG CREST's MSc in Frontier Intelligence and Autonomous Agents is designed to prepare students for this shift through intensive academic training, research-led inquiry, and industry-linked learning.

PROGRAMME HIGHLIGHTS

One-Year Intensive Format
A focused and immersive academic experience designed for deep engagement.

Research-Driven Curriculum
Grounded in strong mathematical and computational foundations.

Frontier Intelligence Focus
Explore intelligent systems, autonomous agents, reasoning architectures, and emerging AI paradigms.

Industry Integration
Designed with strong industry linkage and applied problem-solving exposure.

Capstone Project
Opportunity to work on real-world challenges through guided project-based learning.

WHO SHOULD APPLY

- Final-year undergraduate students
- Final-year postgraduate students
- Early-career professionals
- Industry-sponsored candidates

ELIGIBILITY

- Minimum 16 years of formal education
- 4-year Bachelor's degree / relevant postgraduate qualification
- Minimum qualifying marks as per admission guidelines

WHY TCG CREST

- Built on a strong doctoral and research-led academic foundation
- Industry-backed academic ecosystem with future-facing orientation
- Rooted in The Chatterjee Group's legacy of institution building

PROGRAMME DETAILS

Classes Begin: September, 2026
Location: Kolkata
Format: Full-Time
